Nothing significant to report

INTRODUCTION

Unlike most companies, Wave® simultaneously operates its own bespoke and internal cryptocurrency banking system and services. This new trend in tech business/ finance is most commonly referred to as a Decentralised Autonomous Organisation (DAO). To fully understand this report, readers are advised to briefly research DAO's online e.g. Wikipedia

The Wave® DAO is able to re-write this financial report each time a transaction occurs in order it remains concurrent. At the time of writing these reports are compiled by an administrator to check processes and procedures before going fully autonomous. Furthermore the DAO is able to autonomously summarise changes and place a link to the previous report in the changelog (of the most recent report).

The Wave® DAO even replaces written and signed legal agreements with encoded scripts known as cryptocurrency smart contracts. This is handy for when our product must identify, contract-with and pay our customers Internet Service Provider's (ISP's) automatically. Unique cryptographic addresses are also used to replace government issued identities to eliminate fraud and corruption. Wave® also makes redundant conventional company shares (and promissory notes and interest payments to lenders) by issuing cryptographic 'Royalty' and 'Interest' Tokens.

Traditionally the asset (Wave®) would be owned by the company, and shares in the company would determine ownership. In the case of Wave® a form of cryptocurrency we call 'Wave® Royalty Tokens (WRT)' are issued in place of shares and can be stored on the beneficiaries mobile phones (if they so desire) on free cryptocurrency wallets which are downloadable from the Wave® website: makeitwave.com.

True ownership of this organisations core asset is subsequently determined by whomever holds these Tokens, making shares in the company, for the best part, redundant. The DAO is effectively affording the company the privilege of being able to administrate it, subject to preset conditions and rules e.g. the company must hold the most Royalty Tokens.

The initial sale of these Tokens is a process called Initial Coin Offering (ICO). Details of the performance of the Tokens ICO's can be located under the Master Registers within this document.

2.1 Review & Purchase

The Wave® DAO activity will appear on the Ethereum blockchain for [public record](#). To purchase Wave® Tokens please visit the investment section of our website: makeitwave.com

WAVE® INTEREST TOKEN (WIT), 10% APR

The same delivery methods used to give investors in Royalty Tokens their royalties, are employed by the Wave® DAO to offer lenders real-time interest on loans made to Wave®. **Interest Tokens** can be used to receive real-time interest on loans, in much the same way royalties from our network are autonomously paid to Royalty Token holders.
